THE CROSS-CHANNEL LANDSCAPE ACROSS GEOGRAPHICAL MARKETS

Across geographical markets there is a **strong correlation** between **e-commerce maturity** and **cross-channel development**

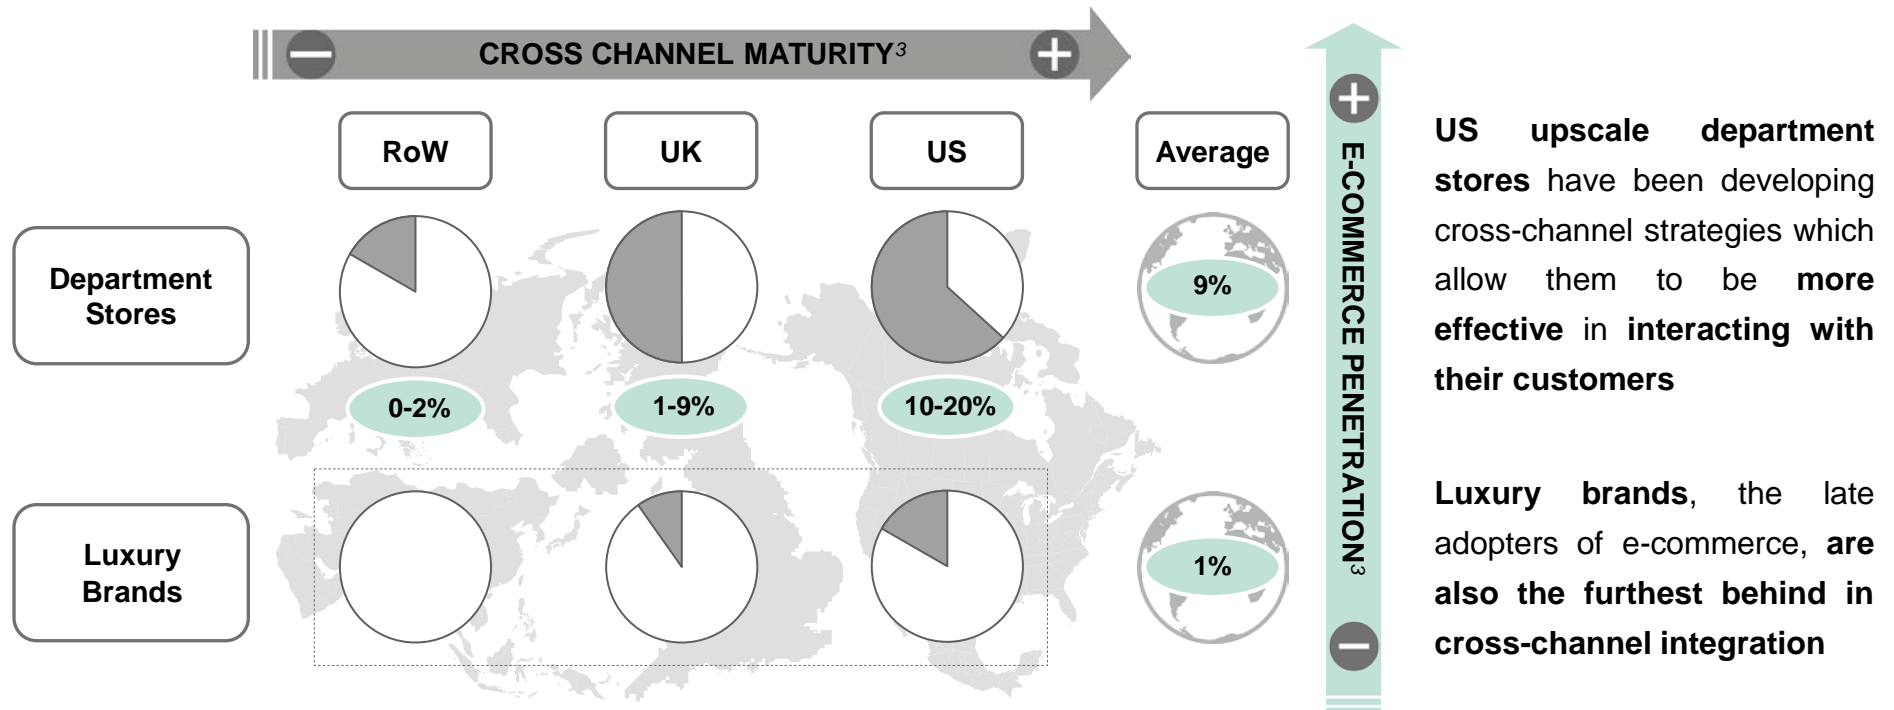

Note: For sources cited on this slide, please refer to slide 66

THE GLOBAL CROSS-CHANNEL LANDSCAPE IN THE LUXURY SPACE

In the high-end fashion and luxury industry, there is a **strong correlation** between **cross-channel maturity** and **e-commerce penetration**

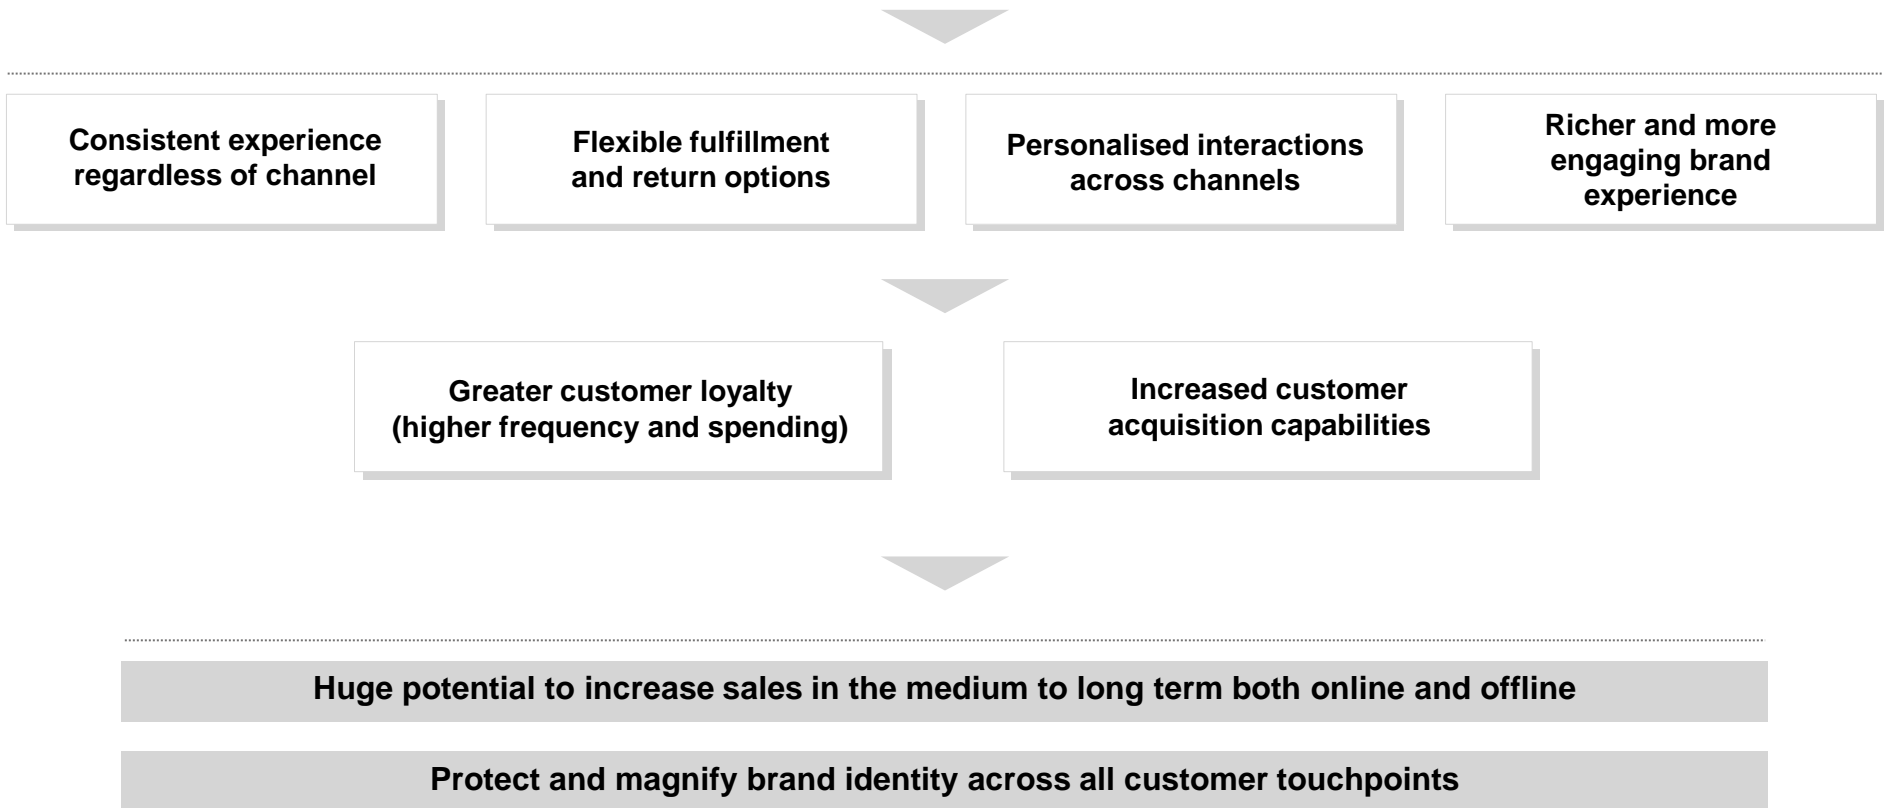

US upscale department stores are leading the game in cross-channel development, thus achieving the highest e-commerce penetration

Luxury brands have tremendous mid-term upside potential

Note: For sources cited on this slide, please refer to slide 66

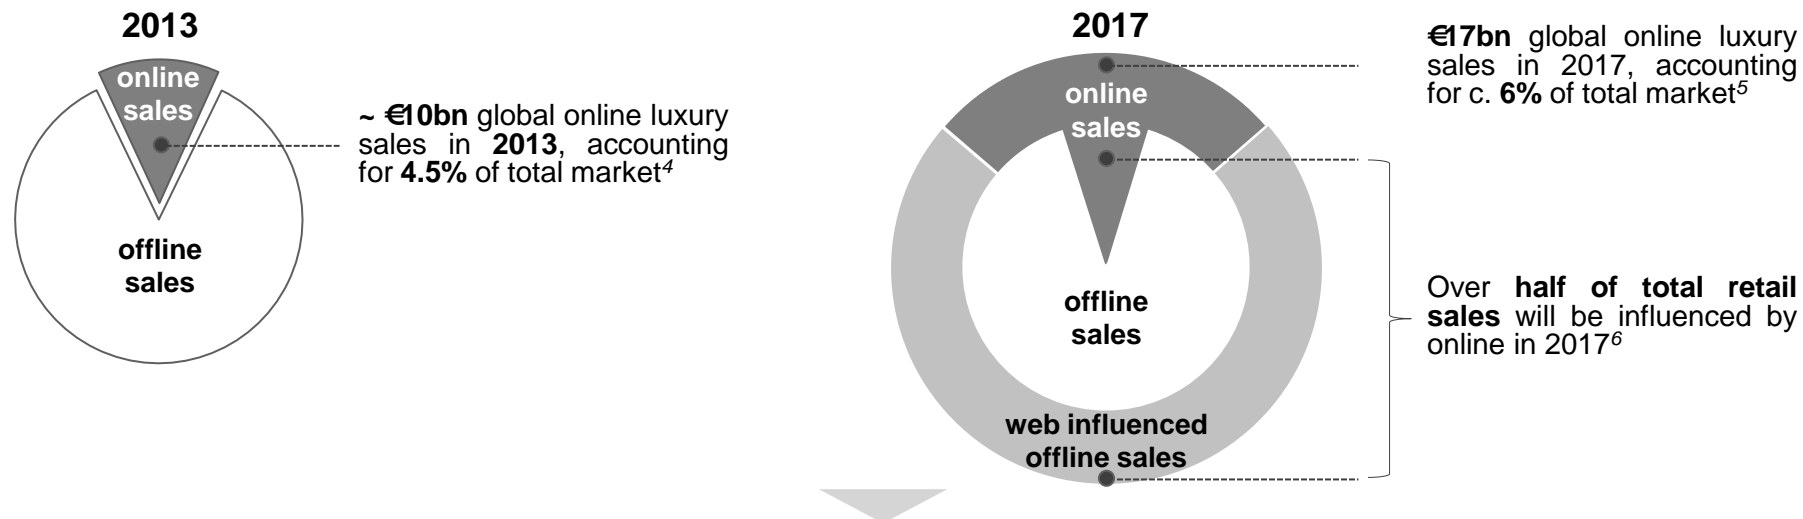

Seamlessness is the ability to deliver an enhanced customer value proposition by connecting distribution channels

THE CROSS CHANNEL OPPORTUNITY FOR LUXURY BRANDS...TOO BIG TO BE MISSED

- Cross channelling will be one of the driving forces behind the growth in luxury consumption
- The incremental business is to be weighted more towards the online channel
 - Greater proximity to the customer (websites accessible anytime, anywhere)
 - Greater effectiveness of marketing and CRM campaigns
 - Possibility to leverage online the much larger offline customer base

Luxury Brands are embarking globally in cross-channelling to drive growth and reinforce relationships with customers

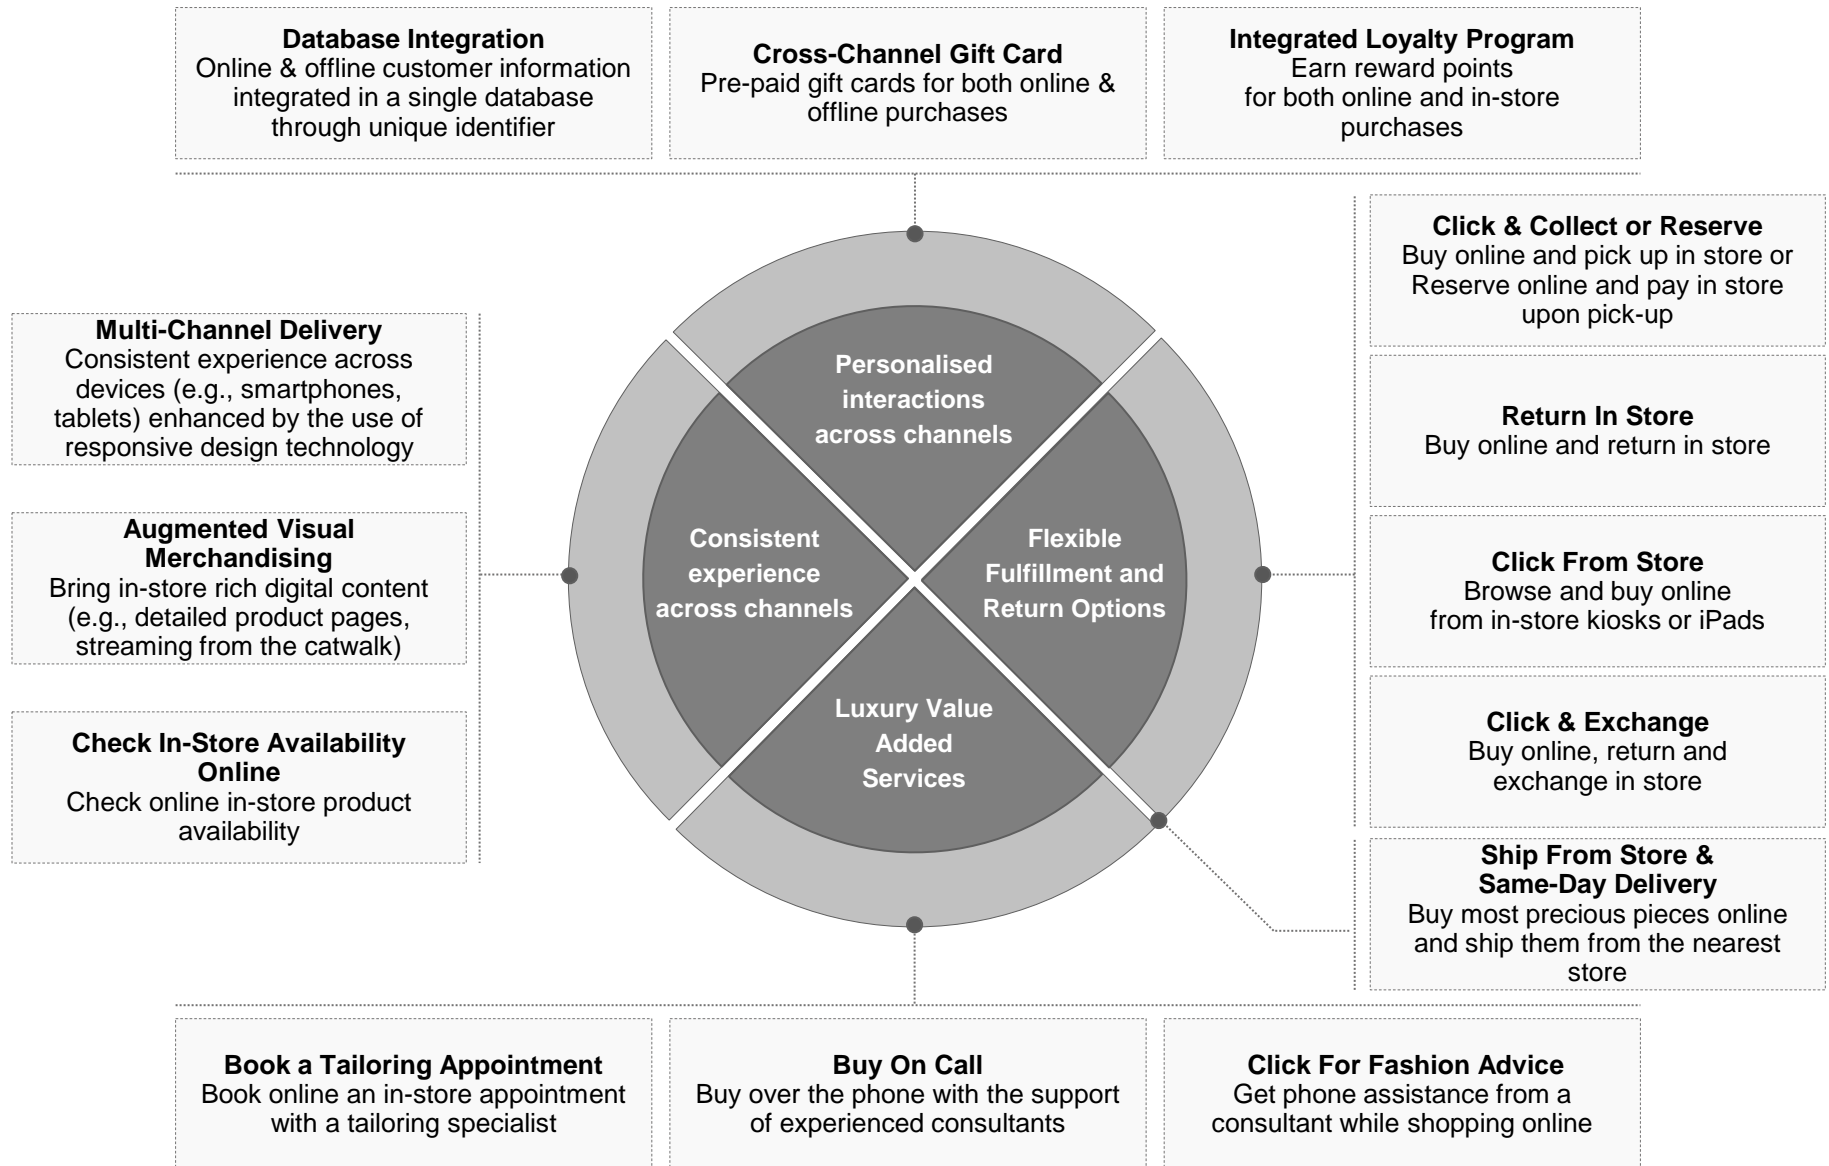

**By supporting its partners along the cross-channel revolution,
YOOX will directly benefit from the leap in e-commerce penetration and get even more deeply entrenched into their retail model**

- The advent of technology is changing the way media is consumed and how media companies reach their audience
- The general trend is falling engagement with print formats - leading to declining circulation of print newspapers and magazines - alongside shift in emphasis to digital versions
- Faced with the reality of declining sales from print and print advertising revenues, publishers are looking for new income streams and a way to monetise the demand they create by setting trends through rich fashion content

The line between content and commerce is increasingly intertwining

- “editorial commerce” is emerging as the answer to fulfill that demand: readers want to access the products at the end of the story
- Nearly all fashion publishers have already embarked on some kind of e-commerce experiment but most of them with solutions which resulted in mere marketing affiliations offering poor and disconnected customer experience

“PRODUCT BROADCASTING”: THE YOOX WAY TO BRIDGE THE GAP BETWEEN TELLING AND SELLING

YOOX Group can magnify its luxury product assortment onto numerous and varied third-party selling platforms, thanks to its flexible technology, allowing a seamless transition from content fruition to shopping experience

...thus enabling fashion magazines to create an immediate and seamless connection between content and commerce

by providing...

- Established relationships with leading fashion brands across multi-brand and mono-brand
- Global and state-of-the-art technology and high precision customer logistics tailor-made for fashion
- Consolidated know-how in digital luxury

by benefiting from...

- Enhanced positioning and greater visibility in the luxury industry
- Access to new and highly-qualified audience
- Access to high-quality content
- Third parties' marketing efforts
- Maximised sell through and margins

2013 - 2015 CAPEX PLAN

- ~ €92-101 million cumulated capital expenditure between 2013 and 2015. Capex growth expected to decelerate in 2013-2015 compared with 2010-2012, resulting in decreasing Capex to Net Revenue ratio
- Technology investments will support business innovation needs while servicing operations and logistics, thus enabling further efficiencies
- The “Lego” approach to logistics will support the Group’s future growth requirements through limited and modular additional investments, while limiting dependence on a single warehouse
- Automation investments in digital production will ensure greater productivity, driving operating leverage

Technology and logistics platforms can be either a constraint or an enabler...

We are working hard to ensure our platform continues to be the enabling factor of our strong long-term growth
